Re: Emergency Permit
Permit No. (b) (9) - Osage County, Oklahoma

Dear Mr. Houghton:

Regulations at 40 C.F.R §147 provide for issuance of emergency permits to avoid a substantial delay in oil and gas production.

In accordance with the provisions of those regulations, an emergency permit is issued to KWB Oil Property Management, Inc. for construction and injection into Well No. 65, located in Osage County, Oklahoma at SE Quarter, Section 18, Township 23N, Range 12E.

As permittee, you are authorized to inject salt water for disposal under the following conditions:

1. Injection should be limited to the following subsea interval: Arbuckle (1813 feet - 2301 feet).
2. Mechanical integrity of the well must be demonstrated prior to injection.
3. Injection shall not result in the movement of fluid into an underground source of drinking water (USDW). The operating injection pressure at the wellhead shall not exceed 0 psig.
4. During the emergency authorization period, the owner/operator shall comply with UIC regulations at 40 C.F.R. §147.

VAN WYK CHAVARRIA LOVE

9/2/19 6 9/2/19

Emergency authorization to inject shall remain in effect for 90 days, unless a permit application is approved. In that case, this authorization will terminate on the effective date of the permit.

Failure to abide with the above guidelines is a violation of the Safe Drinking Water act and may result in non-compliance action.

If you have any questions, please call Mr. Gus Chavarria at (214) 655-7165.

Sincerely yours,

Myron O. Knudson, P.E.
